

Social Media Best Practices for College Students

THE DO'S (Best Practices)	THE DON'TS (What to Avoid)
1. Use Privacy Settings: Regularly review your account settings to control who can see your posts and tagged photos.	1. Don't Post Illegal Activities: Avoid sharing content involving underage drinking, drug use, or any illegal acts.
2. Think Before You Post: Ask yourself if you would be comfortable with a future employer or professor seeing the content.	2. Don't Overshare Personal Info: Never post your home address, phone number, or current specific location (live-tagging).
3. Network Professionally: Use platforms like LinkedIn to connect with industry professionals and showcase your ML projects.	3. Don't Engage in Cyberbullying: Avoid heated digital arguments, "call-out" culture, or posting derogatory comments about others.
4. Verify Information: Before sharing a news story or "viral" tip, check the source to avoid spreading misinformation.	4. Don't Plagiarize Content: Never post someone else's work, code, or art without giving proper credit to the original creator.
5. Support and Uplift: Use your platform to share achievements, support classmates, and participate in positive community discussions.	5. Don't Badmouth Your School/Job: Avoid posting negative rants about professors, classmates, or internship supervisors.
